Welcome to EditinPDF

Try these on this page

- Highlight this sentence: select it, then choose Highlight.
- Underline or strike out any line of text.
- Draw a circle around the word GARDEN with the pen tool.
- Add a text box or a note anywhere on the page.
- Search for the word orchard to jump to it on page 3.

The community GARDEN project

Our neighbourhood garden started with six raised beds and a handful of volunteers. Three seasons later it feeds forty households, hosts a weekly class for children and keeps a seed library that anyone can borrow from. This document is a short example you can read, mark up, fill in and sign to see what EditinPDF can do.

Volunteers meet every Saturday morning. New members are always welcome: fill in the sign-up form on the next page, sign it, and save your copy. Nothing you do here leaves your device unless you choose to share the file.

Harvest report

Kilograms harvested each season. The orchard trees gave their first fruit this year.
